

# DCS® 7 Edger Sander

This professional-quality edger constructed of highly polished aluminum alloys is built tough for everyday use. The Bona DCS® 7 Edger Sander has been specially adapted with an exhaust hose fitting allowing it to be connected to any of the Bona DCS® vacuums. In addition, the edger has been fitted with a custom dust trap underplate and containment brushes to provide virtually dust-free edging when used in conjunction with a Bona DCS® vacuum.

The Bona DCS® 7 Edger Sander is precision balanced with non-marking, stainless-steel, swivel bearing wheels which provide smooth flow and handling. It also has a non-marking disc guard and light. The Bona DCS® 7 Edger Sander comes complete with a 1-year warranty, 25 feet of hose/cord assembly, and an owner's manual.
