

Universal Sander

8"/10" Belt and Drum Sander

The Bona® Universal offers the ultimate in versatility and precision for hardwood floor sanding. This 5-in-1 machine from Sweden is available standard as an 8" or 10" belt sander (solid drum). Optional drums include 8" and 10" expandable drums, and a 10" slotted drum (felt or rubber). With the Universal you are ready for any challenge you may face – from removing multiple layers of old finish to the last cut of fine, chatter-free sanding.

The 4.5 HP American made motor provides all the power needed to accomplish the most demanding wood floor sanding job. The internal volt meter with digital readout tells the operator if the machine is being operated in a safe voltage range. The wide-opening drum chamber access doors provide easy access for sanding belt and drum changes.

Convenient 3-position sanding pressure, belt tracking, and machine leveling adjustments; adjustable-height handle shaft and dual feathering handles help make the Universal a user-friendly, ergonomic sander. The Universal's intermediate weight and simple breakdown (motor chassis, handle, dust tube) make this machine ideal for one-man operations. A 15-pound nose weight (included) makes the Universal more aggressive when additional drum pressure is desired on the first cut.

An emergency stop switch, waist belt safety harness and thermal overload protection lead the list of safety features.

The Universal comes complete with 50 feet of 10/3 yellow non-marking cable; quick release, high profile waist belt, "Manifil" dust bag, tool kit, 1-year warranty, and an owner's manual.

Technical Specifications

Motor (single phase)	4.5 HP, 230 Volt, Thermal Overload Protection
Machine Weight (Extra nose weight included)	185 lbs.
Sanding Drum Speed	2,200 RPM
Sanding Drum Width	8" or 10"
Abrasive Belt Size	7-7/8" x 29-1/2" or 9-7/8" x 29-1/2"
Dimensions	38"L x 14-1/4"W x 39-1/2"H
Handle shaft adjusts to accommodate individual's height • Dual Feathering Handle	

On-Line Digital Volt Meter • 30 Amp 230 Volt Twist Lock Connectors
Tool Bag and Sanding Dust Bag included

Fulfills all essential European Health and Safety Requirements of Directive 89/293/EEC.
